

Chionanthus virginicus

Family: Oleaceae

Common Name: fringe tree

- Height: 12-20'
- Spread: 12-20'
- Light requirements: full sun to part shade
- Soil: medium, well drained. Prefers moist, fertile soils
- Flower: showy, fragrant
- Bloom Time: May to June
- Bloom Description: Creamy white
- Growth: flowering tree
- Native Origin: Eastern United States

Fringe tree is suggested for city gardens due to its ability to tolerate air pollution.
